CARAT DISTILLERY — OUR STORY

Carat Distillery was born from a simple ambition — to create spirits that would be remembered.

Founded in Slovakia in 2006, Carat began its journey by mastering the art of distillation and working with carefully selected natural ingredients.

Over the years, experience became craftsmanship, and craftsmanship became our signature.

For more than fifteen years, we have combined traditional recipes, modern technology and uncompromising attention to detail to create spirits with their own character and identity.

Today, the Carat portfolio extends from classic premium vodka to distinctive fruit distillates and exclusive spirits created for customers and markets around the world.

But regardless of the bottle, the recipe or the destination, our philosophy remains unchanged:

We do not simply produce spirits.
We create products designed to be remembered.

CRAFTED WITH PURPOSE. PERFECTED BY TIME.

CRAFTED WITH GOLD.
PERFECTED IN HARMONY.

GOLD SYMPHONY VODKA 40%

— ◆ —
Vodka Gold Symphony (Golden Symphony) - a strong drink of the "Premium" class. The word "gold" in the name did not appear by accident: a gold leaf is added to the vodka. Golden Symphony is made from "Lux" alcohol, with honey added to the composition. In addition, the composition includes an infusion of oat flakes and wheat bread, which give it a special piquant taste.

SILVER

SYMPHONY

— VODKA —

PURITY. ELEGANCE.
PERFECTION.

SILVER SYMPHONY VODKA 40%

Silver Symphony vodka is produced with the addition of silver flakes. This makes the drink unique. The "Premium" vodka class is not awarded in vain: it is the purest product of high quality. Please note that the silver flakes are intended for consumption, so you do not need to worry about accidentally swallowing them.

Since ancient times, silver has been considered a healing metal. Scientists believe that silver restores the body, removes harmful substances and disinfects.
